

"The Citizens Of This State Shall Have The Personal Right To Hunt And Fish..."

HUNTANDFISHTN.COM

A constitutional amendment will be on the ballot on November 2, 2010, when voters go to the polls to elect a new governor for the state of Tennessee. The amendment simply affirms the personal right of Tennesseans to hunt and fish within the prescribed laws, and without violating personal property rights.

Why Is This Necessary?

- As Tennessee's population grows, we are losing our connection to the land.
- Hunters and fishermen are the greatest sources of conservation funding in America.
- It will help protect a system of wildlife management that benefits us all.
- Hunting and fishing are a multi-billion dollar industry in Tennessee.
- If we wait, it will be too late.
